Questionnaire for the Applicant

1) How would you introduce yourself? (State your aims, expectations from life, hobbies, likes and dislikes, any philosophy you believe in)

I'm Vibhav Bansal. I would like to pursue architecture as a career in the near future. My dream university is the MIT in Massachusetts, USA. During the lockdown I picked up several hobbies like cooking and it gave me experience in household chores. This makes me self-reliant and confident in my abilities. Apart from reading and writing, travelling and trying new things are the zest of my life. I'm a perfectionist who looks out for the smallest details and is very observant. My notable strengths are my resilience and attention to detail. I strive to complete each task as thoroughly as possible. I believe that anything half done is as good as completely undone. I'm ambitious while still having a good understanding of my capabilities and acumen. I'm incredibly attached to my family who mean the world to me. I value friendship and honesty.

2) Why did you choose to do an IBDP?

I believe that the exposure I'm searching to attain can be achieved through the IBDP board, which helps students associate with universities abroad and develops the essential skills is us to apply for the best education we can receive. Its student-friendly and open ideologies are encouraging and help nurture a healthy learning environment. The fluidity in the choice of courses encourages me to choose what suits me best. I am incredibly excited for the various possibilities and activities IBDP has to offer.

3) Have you any special achievements in the field of sports/ cultural activities/ community service etc?

I have taken part in several cultural and academic activities. I secured the gold medal in the Hindi National Language Competition in 9th. I have secured the first place in the Ramayana Competition in 6th. The Foreign Exchange Programme saw me collaborating with a Dutch school called Frits Philips in 8th. I have written a book called "The Facility" through the BriBooks platform and become a published writer. I have hosted the Inter-House Elocution Competition and participated in the Inter-House Essay and Poetry Writing Competitions in both Hindi and English. I would like to join the Remove The Rag programme and provide to the underprivileged.

4) Mention a person or an incident that has impacted your thoughts, actions and personality. Explain how you have been influenced.

Frank Gehry is an incredible Canadian-American architect and designer. He is one of the most influential architects of the 20th century and his avant-garde style is world renowned. He would use common home-building materials like corrugated aluminium, unfinished plywood and chain-link fence to create rich, intricate spaces. His Guggenheim Museum Bilbao in Spain is a marvel of complex curvilinear forms. "I was looking for a way to express movement." Incorporating works of art into concrete structures while maintaining functionality is an admirable achievement of his. His progressive ideas inspire me to make my mark in the field of architecture. It encourages me to be more creative and think outside the box as there are no limits in art or in expressing oneself. It has brought about a paradigm shift in my thought process and creativity.

5) The fears and challenges that you need to overcome.

I often feel like I do not take care of myself and live in self-neglect. I wish to focus more on my mental and physical health this year. I fear drastic change, making me apprehensive at times. Battling this is one my biggest goals, and inculcating an attitude of forgiveness and self-compassion is certainly on my agenda. I am starting to step out of my comfort zone more and explore new avenues or paths. I do not wish to shy away from opportunity or a valuable experience.
