## Guidelines for filling the Subject Choice Form:

- 1) A student has to select 6 subjects.
- 2) Apart from the above, the core requirements: TOK, CAS and EE are compulsory.
- 3) 3 HL (High Level) and 3 SL (Standard Level) subjects, generally, one from each group.
- 4) HL entails 240 hours and SL entails 150 hours of teaching.
- 5) Each subject can be selected only at one level: HL or SL .
- 6) In case a student does not want to select Group VI at all, he or she has the option of selecting an additional subject from Group III or IV.
- 7) Math Analysis and Approaches (MAA) is for students who are interested in Mathematics, Engineering, Physical Sciences and some Economics. It has emphasis on Algebraic methods.  
  
Math Applications and Interpretation (MAI) is for students who are interested in Social Sciences, Natural Sciences, Medicine, Statistics, Business, Engineering, Some Economics, Psychology and Design. It has emphasis on Modelling and Statistics.
- 8) Spanish B and French B is offered to students who have already studied Spanish and French and can read, write and respond in the Language.
- 9) An Interdisciplinary subject ESS (Environmental Systems & Societies) can be taken from either Group III or Group IV.
- 10) Universities specify the subject combinations and grades as prerequisites for admissions into different courses. Hence, do your homework well.
- 11) Final selection of levels in subjects can be made till the school has finished 4 weeks of teaching.  
12) This will be done in consultation with the teachers, students and parents.

## Questionnaire for the Applicant

**1) How would you introduce yourself?** (State your aims, expectations from life, hobbies, likes and dislikes, any philosophy you believe in)

To begin with introduction, my name is SHARDUL .S . PALANDE I am from grade 10 and my likings include playing football, chess, and coding and exploring . I am a person who is keen to learn AI (artificial intelligence) and robotics. For my passion I joined a computer center to learn coding and now it's been 3 years I know programming languages like c, c++ and html and python basics.

I am a well organised person who believes in neatness in every task. In addition, I love doing multitasking things because I don't prefer doing work in only specific field. As it gives me opportunity to enlarge my horizons.

My moto in life is to build a community to help people through the way of technology for that I am working hard and I am a technology enthusiast too.

My favourite subject includes physics and maths as these both subjects include problem solving skills which I think I am better at.

The philosophy I believe in is that combination of hard work and smart work leads to success. Only hard work can never make someone successful.

The thing I expect from life is to give me good luck and paths to reach my destination. however, I just can't rely on luck, I definitely need to work hard for it. As in Hinduism, Lord Krishna says perform your duty, but don't get attached to results.

My dislikes include I don't like messiness and when people make lot of noise near me, I get devastated.

**2) Why did you choose to do an IBDP?**

I chose IBDP because it is not a curriculum it is a journey where student are enforced to learn and think beyond classrooms. IBDP includes a lot of workloads of CAS as well as projects which can help me improve time management skills also, I have to write 4000 words essays which will help me in future. I got to know all this information from internet. I think IBDP is essential for me because it provides one of the most complex curriculums in the world. So, it can help me to get offer letters from top foreign universities in the world (which is my dream). The IB curriculum is designed to prepare students for higher education and equip them with the skills they need to succeed in university. The IB Diploma Programme, in particular, is highly regarded by universities around the world and is widely recognized as a challenging and rigorous programme.

**3) Have you any special achievements in the field of sports/ cultural activities/ community service etc?**

I have many achievements in interschool competitions in the area of dance, drawing, handwriting, fancy dress, etc. I have completed green belt in karate (Shotokan martial arts). I have won distinction in IGE international grading exam in UCMAS abacus. Also, I have played many football tournaments till district level and interschool and from club (BUFC )and won too.

**4) Mention a person or an incident that has impacted your thoughts, actions and personality. Explain how you have been influenced.**

The role model I admire most is Cristiano Ronaldo we all know how greatest he was because he is a very hardworking person and believes in to be no. one all time and this gave me motivation to believe you are the best and you always have to be on the top. Also, I admire Elon musk because we have very similar

interest as he started learning coding at very young age and started a company named PayPal and made a profit. He is running an AI company which too I am very interested in, also he is a CEO so I learned how to lead a team and take initiatives and make decisions and make the world better place to live.

**5) The fears and challenges that you need to overcome.**

I am a bit emotional person so I need to be strong in some situations
