Application for IB Diploma Program 2024-26

Guidelines for filling the Subject Choice Form:

- 1) A student has to select 6 subjects.
- 2) Apart from the above, the core requirements: TOK, CAS and EE are compulsory.
- 3) 3 HL (High Level) and 3 SL (Standard Level) subjects, generally, one from each group.
- 4) HL entails 240 hours and SL entails 150 hours of teaching.
- 5) Each subject can be selected only at one level: HL or SL .
- 6) In case a student does not want to select Group VI at all, he or she has the option of selecting an additional subject from Group III or IV.
- 7) Math Analysis and Approaches (MAA) is for students who are interested in Mathematics, Engineering, Physical Sciences and some Economics. It has emphasis on Algebraic methods.

Math Applications and Interpretation (MAI) is for students who are interested in Social Sciences, Natural Sciences, Medicine, Statistics, Business, Engineering, Some Economics, Psychology and Design. It has emphasis on Modelling and Statistics.
- 8) Spanish B and French B is offered to students who have already studied Spanish and French and can read, write and respond in the Language.
- 9) An Interdisciplinary subject ESS (Environmental Systems & Societies) can be taken from either Group III or Group IV.
- 10) Universities specify the subject combinations and grades as prerequisites for admissions into different courses. Hence, do your homework well.
- 11) Final selection of levels in subjects can be made till the school has finished 4 weeks of teaching.
12) This will be done in consultation with the teachers, students and parents.

Application for IB Diploma Program 2024-26

Questionnaire for the Applicant

1) How would you introduce yourself? (State your aims, expectations from life, hobbies, likes and dislikes, any philosophy you believe in)

I am a sophomore student with a vision of working in the field of science, particularly in aerodynamics. My interests in cars and computers have attracted me to this field, prompting me to explore it further. My ambition is to study hard and excel in my studies so I can gain admission to a good university in Germany. I am fully committed, passionate, and sincere about my tasks, always striving for perfection in the work I am given

Beyond studies, I am also into writing blogs and stories as a hobby. I enjoy coding and am eager to learn more programming languages. I also participate in many extracurricular activities that help me explore and enhance my skills, from participating in competitions to giving speeches.

When it comes to dislikes, I am not a big fan of inefficiency. I prefer to keep my work organized and strive for perfection in everything I do.

I am excited to embark on this new journey and study more about science

2) Why did you choose to do an IBDP?

I chose to pursue IBDP because it focuses more on practicality and also encourages students to think critically. Moreover, the IBDP emphasizes specific subjects, which helps students pursue and excel in those particular areas. The program enhances communication and life skills, which are crucial in the long run. Additionally, it aligns with my future aspirations.

3) Have you any special achievements in the field of sports/ cultural activities/ community service etc?

Being an animal enthusiast and a cat lover, in particular, I have always wanted a pet of my own. However, not having one did not stop me from contributing positively to society. I try to regularly feed the street cats in my neighborhood and I also spend time with them. It brings me happiness and a sense of peace to connect with these animals.

I genuinely hope that one day I will have the opportunity to have my own cat.

4) Mention a person or an incident that has impacted your thoughts, actions and personality. Explain how you have been influenced.

One person who has significantly influenced my thoughts, actions, and personality is my elder sister. Her decision to pursue a career in law, despite our family's strong preference for a medical profession, has left a profound impact on me. She is not just my sister, she is my best friend, my roommate, my companion, my mentor. Growing up, there has always been an expectation within our family to pursue a career in the field of science. However, my sister defied it and chose her passion in law. Witnessing her determination and courage to choose law despite our family pressure taught me how to always be true to yourself and also follow your passion and also work hard for it. Seeing her excel in law makes me admire her even more. I really respect her and am thankful to have a sister like her.

5) The fears and challenges that you need to overcome.

The fears and challenges that I need to overcome are my insecurities and my sensitive nature. I have a fear of getting criticized and of not meeting others' expectations. My low self-esteem is something I am working

on and I am trying to learn how to stand up for myself and overcome these insecurities.
