## Questionnaire for the Applicant

**1) How would you introduce yourself?** (State your aims, expectations from life, hobbies, likes and dislikes, any philosophy you believe in)

I am an inquisitive kid, self learning and learning by doing things. I am interested in 3D printing and have been using one to produce a variety of 3D printed models since the past 3 - 4 years. I also play guitar as a hobby. I am yet exploring what I want to do in life. I like food, cycling and tinkering around with things. I dislike walking a lot and prefer cycling. I believe in enjoying life as you only get it once.

**2) Why did you choose to do an IBDP?**

IBDP gives me a wider education instead of just rote learning. It would enable me to study overseas wherein the choice and flexibility of subject choices etc is far wider than what is available in India.

**3) Have you any special achievements in the field of sports/ cultural activities/ community service etc?**

I play guitar as a hobby.

**4) Mention a person or an incident that has impacted your thoughts, actions and personality. Explain how you have been influenced.**

My schoolfriend Bhavik, who taught me how to think realistically. I discuss with him my future possibilities and choices that I have to make going forward and he gives me guidelines for the same. eg, When i was unclear whether I should take science or commerce in 11/12, he gave me a very simple equation, if i get more than 80 % in science then I should look at science otherwise go for commerce.

**5) The fears and challenges that you need to overcome.**

I have a challenge in written English, hence need to overcome spelling errors and improve my memory which would enable me to recall things better.
