Application for IB Diploma Program 2024-26

Guidelines for filling the Subject Choice Form:

- 1) A student has to select 6 subjects.
- 2) Apart from the above, the core requirements: TOK, CAS and EE are compulsory.
- 3) 3 HL (High Level) and 3 SL (Standard Level) subjects, generally, one from each group.
- 4) HL entails 240 hours and SL entails 150 hours of teaching.
- 5) Each subject can be selected only at one level: HL or SL .
- 6) In case a student does not want to select Group VI at all, he or she has the option of selecting an additional subject from Group III or IV.
- 7) Math Analysis and Approaches (MAA) is for students who are interested in Mathematics, Engineering, Physical Sciences and some Economics. It has emphasis on Algebraic methods.

Math Applications and Interpretation (MAI) is for students who are interested in Social Sciences, Natural Sciences, Medicine, Statistics, Business, Engineering, Some Economics, Psychology and Design. It has emphasis on Modelling and Statistics.
- 8) Spanish B and French B is offered to students who have already studied Spanish and French and can read, write and respond in the Language.
- 9) An Interdisciplinary subject ESS (Environmental Systems & Societies) can be taken from either Group III or Group IV.
- 10) Universities specify the subject combinations and grades as prerequisites for admissions into different courses. Hence, do your homework well.
- 11) Final selection of levels in subjects can be made till the school has finished 4 weeks of teaching.
12) This will be done in consultation with the teachers, students and parents.

Application for IB Diploma Program 2024-26

Questionnaire for the Applicant

1) How would you introduce yourself? (State your aims, expectations from life, hobbies, likes and dislikes, any philosophy you believe in)

My name is Akarshana Kashyap and I am a optimistic rationalist. I may not always look at the glass half full but I always try to find solutions to a negative or difficult problem. I am a very ambitious young student and have always like to speak my mind and take part in intellectual conversations even though I might not be the highest intellect. I am outspoken and quite confident and hence like public speaking and debating. And have been a sattriya dancer for 8 years which introduced me the rich culture and music of my home state Assam. I like to be rational but not necessarily a negative person. I like to listen to people and try to view things from different point of views .

2) Why did you choose to do an IBDP?

IBDP is the perfect board for me to explore the practical side of things as in CBSE there is less practical applications of the subject. I will have more research opportunities to know more about my interests such as biochemical engineering or biochemistry. I want to explore my interests in a more deeper and practical way instead of looking at them as face values, which I think IBDP will offer me . It will help to adapt the global changes as well as face issues in a more rational way.

3) Have you any special achievements in the field of sports/ cultural activities/ community service etc?

I have been a sattriya dancer for 8 years and am in the last year of getting my final degree in sattriya dance. I have danced in various events including in a local TV program . I was a part of a debate club in Assam till 7th standard. But in my current school there haven't been many opportunities of debating and hence haven't been part of any club since I have been studying here which was 8th grade. I have participated in various science competitive exams such as SOF NSO, SOF IMO, SOF IEO , ASSET examinations and have gained ranks in school as well as district and national level. I also plan to appear for NSEB EXAM this year as I would be eligible for IBO this year . And with the help of IBDP take part in RSI initiated by MIT. To help me in these fields i think IBDP is the perfect board for me

4) Mention a person or an incident that has impacted your thoughts, actions and personality. Explain how you have been influenced.

Last week when I walking by the side of the road i saw two vehicles one a posh convertible and another a truck that had a open back . In both of these vehicles he children were sticking their heads out and were enjoying the open air . This small "insignificant" incident was going through my mind all week . It made me realize how life can be enjoyed regardless of class, income , cast or any social division. Happiness is innocent and has no boundaries. It has to limits . The only thing that limits our happiness is our mindset towards what makes us happy.

5) The fears and challenges that you need to overcome.

One of my biggest fears is to disappoint the people who look up to me or think that am doing going to do something great. I forget to think what matters to me and what makes me feel contempt. I am a ambitious and hardworking young kid and i think i am capable enough to make others as well as myself proud. but at times to make others proud I end up disappointing or tiring myself . I tend to overwork and get tired while

doing things that don't even require as much attention and hence to become a perfectionist i end up draining myself of energy. Hence i would like to improve on that
