Questionnaire for the Applicant

1) How would you introduce yourself? (State your aims, expectations from life, hobbies, likes and dislikes, any philosophy you believe in)

I am Niharika Vaidya . I am a driven and creative person with a passion for Dance (Kathak) & Karate and a flair for languages. I have an inclination for Biology and I would like to pursue medicine or its allied fields (life sciences) in the future. I am a hardworking and grounded person . I am a staunch believer of combining hard work with smart work to complete a task for an effective as well as time efficient result.

2) Why did you choose to do an IBDP?

Choosing the IBDP curriculum has various reasons, IBDP provides a holistic approach for the all around development of an individual and I really like how it is more application oriented and also has a creative , project based curriculum for an artistic person like me. I enjoy studying Biology and have a passion for English language and IBDP will help me to continue learning both of my likings together with the all inclusive curriculum .

3) Have you any special achievements in the field of sports/ cultural activities/ community service etc?

1)I have been learning kathak from the age of six and I have Completed 5 five kathak examinations till the level of Madhyama Poorna.

2) I am a Brown Belt in Karate and I have won the Kubota Cup for best kata at the 75th All India GosokuRyu Karate competition.

3) I have represented Smt.sulochanadevi Singhania school at the District level karate competition in the under 17 girls category (2023).

4) Mention a person or an incident that has impacted your thoughts, actions and personality. Explain how you have been influenced.

I look upto both my Aunts as role models who after their Graduation in India went abroad in , the era where technology and facilities were not so advanced and with determination and dedication completed their masters and excelled in their careers. Both of them are true inspirations to me for they are strong, financially independent women who manage their professional and household responsibilities with equal balance.

5) The fears and challenges that you need to overcome.

Right from my childhood I have had a fear for the subject of mathematics and in the initial years I used to neglect the subject since I was so scared of it but gradually I have learnt to face this fear and I am working towards overcoming this fear step by step . Now, mathematics is still not my favourite subject but with time I am definitely not scared of it anymore.
